She had been directed in the last letter from her husband two weeks ago to telegraph him when she would arrive in New York. She did so, but neither her husband nor any one to represent him met her. Many important witnesses have already placed themselves beyond the jurisdiction of the Committee's subpoena-servers, and it is rumored that a fund has been raised to pay the expenses of transporta-tion of such as cannot afford to pay their own travelling expenses. Not few, it is said, have suddenly started for Europe, and report has it that official influence has been at work to secure free passage for many of those people to foreign ports.

However that may be, it appears tha there are plenty left who are willing and ready to testify whenever they may be called. "The biggest corruption fund that

could be raised by those affected by this investigation," said a gentleman in close relation with the Committee to an "Evening World" reporter this morning would not be enough to remove all of the 15,000 persons who are able to give testimony before the Committee regarding blackmail and bribery."

The prospect for the week is that the nquiry will be continued on about the same lines as those which have been followed in the past week. Mr. Goff has any number of witnesses of that kind on his list, more, indeed, than will be necessary to fully establish the fact that the blackmailing system extend to every precinct in the city.

Further than this, neither he nor Mr Jerome would go this morning. There may be one or two star witnesses during the week, but from the statements of the counsel, most of the evidence will be

Mr. Goff was asked this morning if there was any truth in the report that Archbishop Corrigan would be subpoenaed as a witness before the Committee and if so, what the character of his testimony woud be, but he declined to say anything about the matter, one way or another, while Mr. Jerome denied all knowledge of such a subpoena, or the intention to summon the Archbishop, who is at present out of the city.

The lending counsel for the Committee is beginning to show the strain of the hard work which has been put upon him. He looked tired and worn wheh he reached his office this morning, and he said he was simply overwhelmed with work.

subjects which could not be thoroughly exhausted before the Committee adjourned.

One of the most important witnesses to be examined this week, if the subpoena-servers of the Committee are successful in finding her, is said to be the ex-proprietress of one of the most notorious places in the Tenderloin precinct. In fact, this woman is reported to have an international reputation. Shé had just fitted up her place at an expense of \$300,000, and secured a hotel license, when the police pounced down upon her and compelled her to close up, although she had spent, it is said, thousands of dollars for protection.

The report that Peter De Lacy, the pool man, would be called as a witness, was revived again to-day, but was as quickly denied. The Committee is also said to have Supt. Byrnes on the string, but when the counsel were asked about this they only smilled and shook their heads and said there was no authority for the statement that the Superintendent had been subpoenaed.
